

Chapters 3 and 4 of the UG1399 v2022.2 generally talk about the loop and array optimisations in HLS.

Table of Contents

Section 1: Introduction.....	11
Summary.....	57
Chapter 3: Loops Primer.....	59
Pipelining Loops.....	59
Unrolling Loops.....	71
Merging Loops.....	72
Working with Nested Loops.....	74
Working with Variable Loop Bounds.....	77
Chapter 4: Arrays Primer.....	80
Mapping Software Arrays to Hardware Memory.....	80
Array Accesses and Performance.....	81
Arrays on the Interface.....	86
