

Files Workshop

Files Workshop

- Given this data structure

```
struct language {  
    string language;  
    string designer;  
    int date;  
};
```

- And this file

```
C++ Stroustrup 1979  
Java Gosling 1991
```

Files Workshop

- Write a program which will
- Read in the data from the file into structs
- Populate a vector with these structs
- Print out all the elements of the vector, separated by commas

Files Workshop

- Modify your program so it correctly handles the following input file

C Kernighan & Ritchie 1970

C++ Stroustrup 1979

Java Gosling 1991

C# Hejlsberg 1999

Python van Rossum 1991
